

RE: COVID-19

As the novel coronavirus (COVID-19) begins to have an increased impact on our communities, we feel it is important to share more about the steps we are taking across our clinics help keep you, our employees and our communities safe and healthy.

Our hearts go out to all those who have been affected. The health and safety of our clients and employees has always been our top priority and this is a rapidly-evolving situation that we will continue to monitor. Our clinics are cleaned and sanitized daily as part of our normal practice. We are also ensuring our employees have the information they need to stay healthy or stay home if they aren't feeling well. All of these practices are informed by guidance from the CDC and WHO, along with guidance from local and Canadian government and public health agencies.

We are confident our clinics continue to be safe and we remain open for business. If you have any questions, please contact your closest Beltone clinic.

Thank you for being a loyal client,  
Your Beltone Team
